Subject: Motivation Letter

Dear Sir,

As a data analyst enthusiast, I am skilled in all Data Analytics software. I have worked as an intern in QPR and ABC company. I have experience in a related field and I like working on Data Analytics technologies. Wish to work in your company as an intern so that I can have more learning opportunities.

I am a team player and a quick learner. I wish to work as an intern in your office and take responsibility of various projects and upskill myself professionally. I look forward to be a part of your company and contribute to its growth.

Sincerely,  
Sara Adam
