**Subject : Motivation Letter**

Dear Sir/Ma'am, I am pleased to apply at United University for pursuing PhD in Electronics and Communication department. I have completed my graduation from IOP University then I opted for MS in ECE with specialization in Microprocessors. From the very beginning when I started to study Microprocessor as a subject , I have always found it interesting . I have even created projects related to 8085 and 8086 Microprocessors. I look forward to contribute more to this field by doing research work. I would be highly obliged if my application will be a part of further shortlisting process and I hope that I will get to be a part of United University.

**Sincerely,**

**James Dolke**
