Subject : Motivation Letter for Postdoc Application

Dear Sir/Ma'am,

Today I am pleased to write this e-mail as I have applied for working as part time professor in Embedded systems for electronics and communication stream. I have completed my doctorate degree from Y University , moreover I have worked as an assistant for PK Sir in OP College . My experience as an assistant professor wants me to do more and I am highly interested in Electrical engineering research oriented competitions and programs. I have a great academic record with 9 Grade points in Graduation from TQR University. I would be highly obliged if I get to work as an adjunct Professor in QT University.Thanking you in anticipation.

Regards

Ayush Jha
