**Subject: Motivation Letter for Scholarship .**

**Dear Sir,**

I am Simran Bhalla , currently in 2nd year of my ongoing bachelor's degree with specialization in ECE from your esteemed institution. I am writing this letter to state that I am willing to apply for the scholarship program of the institute which will be helpful for me to in my fee requirements. I have always studied well since I got admission in your institution and I aim to continue to excel in my academics in future as well. On the basis of my academic record I have always been in top five performers in my stream. I belong to economically weaker section and unfortunately my family can't afford the burden of paying my tuition fees . Therefore I am seeking for financial assistance from the institute via scholarship program. I have filled EWS form which is uploaded on the university website and I have attached its copy to this letter. I love the college environment and wish to perform well in the next academic years as well. I hope that you will consider my application and grant me scholarship after my background check.

**Sincerely,**

**Simran Bhalla**
